

## **Extraterrestrial Aliens and Reptilian Gods in the Quran, Pt X**

by Amir Fatir

**Part I | Part II | Part III | Part IV | Part V | Part VI | Part VII | Part VIII | Part IX |**

The god Ptah was called "the Fashioner."

*Allah is He who made the Earth a resting-place for you and the asteroid belt a structure. And He Fashioned you then He beautified your forms, and He provided you with goodly things. That is Allah, your Lord – so blessed is Allah, the Lord of the worlds.*  
-- Quran 40:64

The earth is a "stopover" or "resting place" for a spacefaring race of Anunnaki. Man's earlier forms were hideous, thus God "beautified you" later, after the kinks were worked out.

*I am going to create a mortal from sounding clay, from black mud fashioned into shape. So when I have completed him and breathed into him of my spirit, fall down making obeisance to him.*  
-- Quran 15:28-29

Man was created incomplete, so work had to be done to complete and perfect the clone.

Sitchen believes that breathing God's breath into the clone means to put the Anunnaki DNA into him.

*Woe to man! How ungrateful is he! Of what thing did He create him? Of a sperm-drop. He created him*

*And it came to pass, when men began to multiply on the face of the earth, and daughters were born unto them, that the sons of the Elohim saw the daughters of men That they were fair; and they took them wives of all which they chose.*

-- Genesis 6:1-2

*The Nephalim were in the earth in those days; and also after that, when the sons of the Elohim came in unto the daughters of men, and they bore children to them, the same became mighty men which were of old, men of the Shem.*  
-- Genesis 6:

The Nephalim (so-called giants) means "those who came down" and refers to the Igigi who mated with human females. The resulting offspring were huge, mighty, "men of the Shem." Shem means "fiery rocket ship," not "name" or "reknown" as it is usually translated.

The Quran refers to sexual relations between human women and Anunnaki (Jinn) males when it promises huwris as a reward to men who are righteous.

There are goodly, beautiful ones ... Pure ones confined to pavilions ... No man or Jinn has touched them before them.

-- Quran 55: 70, 72, 74

then proportioned him.

-- Quran 80:17-19

*The many arduous steps in cloning a human are here indicated:*

*And created you in various stages*

-- Quran 71:14

*Early experiments were shaky at best. They could barely maintain a human form.*

*We created them and made firm their*

*make, and, when We will, We can bring in their place their similarity by change.*

-- Quran – 76:28

Here it is predicted that humans are dispensable and that the makers of man can bring in a new model when they please.

*We certainly created man in the best mould. Then We reduced him to the lowest of the low.*

-- Quran 95:4-

Here God states that man was created superior and was deliberately made inferior. This type of act allows far greater control over the poor slave race. Ninhursag once boasted, "How good or bad is man? According to my whim, I make him as I see fit." At first the clones had to be born by Anunnaki birth goddesses. Then "He created mates for you from yourselves" (30:21). Giving man the ability to procreate was a watershed moment. As man populated he became more of a threat to Enlil's hegemony. Man soon outnumbered the Anunnaki. He was taught to perform tasks such as farming, animal husbandry, serving the gods and mining. For the Anunnaki, Earth became a true "resting-place."

SEX AND THE SINGLE DEITY

These verses presuppose that there are women whom Jinn have touched before, only not these women who are huwris or enlightened female initiates of Heru and Het-Heru (Horis and Hathor). It was the widespread production of mixed-species children that prompted Enlil to order the destruction of man and demi-god via the global Flood.

The mixing of human and Anunnaki is called "sin" in the Bible and Yaweh regrets that he ever let man be created.

Besides, the half-human, half-Anunnaki were clamouring for equal rights and recognition Enlil got sick of it and decided to let them all perish when Nibiru's passage caused the Deluge. The Bible says Noah was "pure in his generations" i.e., genetically pure. No Anunnaki blood, supposedly, was in him. So he and his family were chosen (by Enki) to survive the Flood and repopulate Earth.

The Quran has not a kind word for Noah's wife.

Allah sets forth an example for those

Who blaspheme: the wife of Noah and

The wife of Lot. They were both under

Two of our righteous servants, but They acted treacherously towards them,

So they availed them naught against

Allah and it was said: "Enter the Naar

With those who enter."

-- Quran 66:10

Amir Fatir has studied the Quran

The orbiting Igigi – “those who observe and see” got horny. Thousands of years on a male-only space station caused them to long for the soft touch of a female.

*since 1969. After teaching himself to read Arabic in 1976 he was surprised to find that many passages of the Quran corroborated the theories exposed by scholars who held that earth had once been colonized by ancient astronauts.
